on cosmic reality

at the beginning of time ...

there was nothing but dark and empty space

and in this nothingness ...

there was developing an entity

dreaming of worlds of wisdom ...

wanting light !

and so it came to be !

infinitely empty space

and all this universe

are having the same amount of total energy

so ...

any creator does not have to create energy

he just does want to have a universe

and it will happen

because a universe is part positive energy

and part negative energy

so ...

it totals up mathematically to zero

# on time ....

what was at the beginning of time ?

to know what to do today

we have to know what was and why is every thing here now

at the beginning of time > there was only emptiness every where !

why ? >

because at the beginning there could only be nothing .....

where would it have come from ?

but space has been there all ways !

it was definitely not created at the big bang .....

because ? >

what would have been there before ?

but empty space >>>>

space / eternity from the beginning till the end

fritz.roth@proadesign.com

now some one will come up and say >  
there ist no beginning and no end of time !

and surely >

the beginning of time was with out a start > endlessly !

and the end of time will be with out an end >

infinitely !

why is the universe expanding ever more today ?

because all those trillion suns

are pushing themselves away from each other

through their radiation

and if all those suns are burned out some day

there will be no more drive to push them

away from each other

and so the gravity will prevail

and they will for almost an eternity

be falling together

to creating the next big bang

## on cosmic religion

the universe  
needs sapiens to perceive  
to love and to protect creation

religion does not mean praying  
and asking god for winning the lottery  
god is simply the entity  
having had the wish to create  
creation

needing homo sapiens  
to appreciate this creation

religion and science  
have the same answers  
if both are valid

every citizen of this universe

has to know about creation

has to honor this creation

and has to be guarding this creation

as his first priority

authentic sapient life can only be

if cosmic reality being made public

to all cosmic citizens

there fore the only dogma

in a cosmic religion

being cosmic reality itself

so ... what is the only valid religion ?

resulting out of the above ....

use the universe ... and any world

only as defined by creation !

and consequently from this derive >

all commandments >

all fundamental rights from !

as well as the requirement for peace !

all must recognize the cosmic reality

and then ... guarantee all this !  
meaning an accountable life  
providing for all ...  
no mirage > without vanity !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of >  
being a responsible citizen ...

## on government

inhumane needs ... determine inhumane consciousness  
so only humane need can bring out a humane consciousness

it can not be about  
that decisions are made  
according to the majority principle  
because this is more then wrong  
as the state of this world is proving  
as the history is prove off

but we have to find the right decision  
and that's just an argumentocracy  
where the best argumentation  
the last one  
which is enforceable for everyone  
because no one can find a better one

or do you have a better idea ?

since we can not be free to destroy any world  
we have to make sure ... no one will get this evil idea !  
so we need an argumentocracy  
where every one has a voice bringing fore ward  
any solution ... any violation of cosmic law  
and if no one can bring a better argument fore ward  
then the last will be used as for all binding

or is there a better solution possible ?

## we are ... homo sapiens

documenting a day in the life of >  
first planet < in the year 154 after creation  
of the first human settlement in this universe .....

note .... a responsible life style ...  
can not only be the biggest fun in the universe ....  
but being the only life style ... working endlessly ....

because every one can be convinced of what he is doing !  
forever .....

since we are homo sapiens ...  
we have of course no democracy  
certainly no secret and free voting

but of course an argumentocracy  
meaning ... where is the best solution  
is used by all

because only the best solution  
can be shaping our future for all eternity  
where our universe and all worlds  
are preserved to eternity

and should someone  
bring forward a scientifically provable  
better solution > then this will be used

of course we have no theocracy

even though it is our entire existence  
to conserve this universe and all its people  
so ... we live according to a religion

there is no humanity with power positions  
but an alienating hierarchy

and alienation creates automatically  
and principally criminal energy

which will lead to a secession  
as soon as no power can prevent it  
because power exertion makes it natural  
to creating this cleavage

of course there is no money here  
and consequently no capitalism  
since this only can be the end  
of every thing

we create everything that we need  
so .... that we have everything  
and of course we can keep it  
for millions of years ...

we are looking at > first planet  
at our very right > the sun

below left

what is looking like a tiny moon  
being the space ship  
watching out for the safety .....

parked in geo stationary orbit over the settlement  
with only the sensor doors open !

we are seeing no lites an the planet be low !

no sign of any settlement ... or manufacturing  
the only thing to indicating any population as of now

are the out rigger sail boats beached  
the solar electric rovers > the river boats ....

but there is an emergency plan ready  
to put all those under cover should any need arise !

the camouflaged hydro electric plant at the river falls  
is not operating

the lites for orientation in all the housing  
and control centers is being supplied  
by tiny local thermo nuclear power plants  
from the former uses on the roboter ships  
and planet rovers ....

there is no other hind of any human population  
any where from here ....

naturally ... no broadcasting  
of any radio trans mission of this world  
can be received at any distance !

as all communication is done  
by quanta communicators  
low power short distance equipment  
or through under ground lines ....

we are now in the main command room  
the display showing >

automatic surveillance mode on  
no space sensors > no space ships  
now asteroid on coordinates

**6 39 15.70 > 2 16 22.17**

received quanta message from planet two  
but no frequency messages >

since automatic mode started !

the crew sleeping  
like all residents be low on the planet ....

we are now going toward the first planet  
seeing a robot ship > monitoring the settlement  
seeing a predator going toward it ....

notifying the nearest planet rover automatically  
at the planet surface

there the animal repulsion system is activated  
and the tiger is making a U turn and going off ....

we are now in a cave > at the rivers bank  
seeing two children in the dawn of the new day !  
the increasing light being brought in their room  
by an automated mirror from the rising sun

the led clock showing 5 45 .... the date 05 03 0154  
at this moment

the boy is waking up and looking what time  
and saying aloud

" having to be getting up soon ! "

when his sister is opening her eyes too .....

now we are in the kitchen of the cave  
where the boy is telling his parents there >  
that he does not want to go to school today

but be playing with his friends at the river ....  
his mom asking him >

what they are having in school today ?  
and he startles ....

because he was to show off

his experiment of mixing colors today !

so ... he thinks

he will be going to school today after all ...  
to be showing off > an electric motor

where a disk of all colors in sectors ....  
will be becoming an off white once turning ...

the mother saying  
we are having

commanders day 100th anniversary  
coming up in 3 days

then we will all be having off ...  
and dancing and singing together all day long  
do you remember what he has been doing for us ?

yes ... says the girl

he was the founder of our religion  
he and his crew of a space ship

put the tyrant and his bandits of the empire  
on a planet to die ...

while having time to realize  
all their wrong doing ...

and settled this world for us  
free of any wrong doings ....

I am > because we all are !  
and we can be > because I can be .....

what is the supreme law ?

the universe ... and any world  
use only as defined by creation !

and consequently from this derive  
all commandments

all fundamental rights from !

as well as the requirement for peace !  
all must recognize the present reality  
and then ... guarantee a new !  
meaning an accountable life  
providing for all ...

no mirage > without conceit !  
without physical force > without taboos ...  
all must be addressable !  
meaning capable of

being a responsible citizen ...

then he went off in his spirit later on  
leaving his body behind here

to be helping a native population living  
after our religion in some other galaxy !  
and this day we are celebrating  
what he having done for us ....

all the other relatives are coming in now ...  
many being over a hundred years old

they are fixing breakfast now  
from the seeds

they have been collecting days ahead  
and rolling them out

soaking them since last evening  
and now adding fruits and nuts to it !  
after eating the kids are going off to school >

half of the adults  
are going collecting lunch ingredients  
the others going to their work ....  
since this being the first settlement ...

the galactic counsel being here  
and the co ordination

of all the things to being done

the counsel members are considering  
the danger from the asteroid  
sending a robot ship to it

to making star dust out of it  
to fertilizing our planet !

the message from planet two  
will be considered now ...

*to our dear galactic counsel members*

*as you know ....*

*we have arrived at our new home month ago !  
taking inventory of all plants and animals  
pathogens and toxins ...*

*atmospheric components being confirmed ...  
animal population is in a very early state !*

*having selected a location for the new settlement !  
like our first> at first planet ... at a river bank  
in a desert within the tropics >*

*since the sun shining less than  
at first planet > we will be limiting the settlements  
to the near equator ...*

*there are limited places for caves ... so  
we will later be building*

*partially submerged housing there*

*since the bank mostly does not have enough slope to it  
and since there .... be no more need for  
exclusively camouflaged housing ...*

*we will be all moving into are new housing now*

*to be celebrating commanders day ...  
all together on our new future planet !*

*leaving the space ship two > at automatic command mode ...*

*our dearest regards to all of you  
for having made this possible ....*

*commander ss2*

*the counsel members compose a reply and congratulations >  
for the successful start of a new settlement ....  
on the second planet ...*

*there while in a another galaxy > the spirit of the commander !  
still working on an evolution to a higher race > there !*

*the harbor being down river >  
the space craft factory being at the hydro electric plant*

*up the river ...*

right here > many service work shops for all the technology used  
note books having direct led screens ... using less than 1 watt >  
the rest having only 100 mhz > and the OS being optimized  
as well as all the applications for this ....

there is only one model for each use >  
and that being build to last a 1000 years ....

then at 11 they all coming together again to eating lunch  
under the trees by the river ...

then at 1 pm they are going to take place  
at the workers who are now hunting  
and collecting for diner and the next day until 5 pm

then eating together with their families ...

after they are just resting and talking things over  
so no problems are unsolved ...

till at about mid night > they are having a snack  
to be sleeping again till the morning ....

there is no hierarchy ...

because this would be an alienation  
and be a coming problem for all !

everything must be transparent >  
everything must be understood by all !

only in an emergency >

there is a command structure > thus eg in a spaceship  
at a sea crossing > so if there is no time for talks !

but even then all orders ... spoken about in retrospect >  
and reviewed by all ... to find the better answer !

just as there is no democracy or theocracy ...  
since only ... if all can agree > the answer will be right !

and only if there is no time there will be >

temporary solutions used ....  
till a valid solution is found !

and should any individual or a group  
not be responsible for our universe >

not willing to be responsive ...  
then this necessity will be carried forward with all force !

while there is every freedom to act on your own >  
there must be no exclusion for any one or any thing >

everything must > stay part of the creation !  
because as soon as anybody is excluded

he will be feeling alienated ....  
then arises >>> a criminal association ...

and each organized crime on a world >  
even this whole universe > we will prevent !  
there can be no freedom for the destruction of a people  
or a world > and this is the core of our religion !

where there is no deception what so ever  
only homo sapiens > knowing exactly > what they are doing >  
and what effect this is having on eternity ...

and now ... **a billion years later** ...

our commanders idea still working fine !  
the only difference >

we are having populated almost a million galaxies  
where there are a million planets each ... having a few millions ....

so we are a trillion strong >

but still there is no where any war >  
no force necessary ...

since we solve any problem every day ...

so our galactic nation > note singular !

because we are all united to keep things just this way ....  
meaning there is no competition for any thing worthless !

destructive ....

we are using still the same concept technology  
no need for a million different printers > pcs

but to having total star peace guaranteed !

so now ... we are having to look at this very great problem  
many millions of lite years away in what those problems there

call their milky way ....

so we are now in geostationary orbit over this planet earth !  
this being like a cold shower in the morning ....

already from this distance >  
because we are seeing millions of lites >

on the dark side of the planet !  
because these poor things need to be having  
all this diversion going on

till they are falling asleep in their bed  
while watching television !

our spectrum analyzers having millions of signals  
already received since from very far away ....

we are now checking out the planets environment  
seeing all this floating garbage drifting in the oceans  
checking water quality > contaminated with heavy metals

while predators are going strong !!!  
and are under conservation ...

the smaller fish are being depleted .....  
insanity where ever we are looking !

because these democracies >  
are having those in power

having the greatest insane ideas >  
every where waste > frustration

entertainment > diversion > illness >  
speeding from one idiocracy to the next !

we can not stand this any longer ....  
we are having to call the **galactic pest control** ?

because nowhere >  
can those natives even discuss their problems ...  
let alone solve them !

and we see just clearly for our very eyes >  
what those insane will be doing  
in a million years ....

wasting all this galaxy and then beyond .....

we need to realize >  
that .... **this here ... is the planet of satan !**

where the individual either will ...  
taking care of his psychopathic interests >  
at the cost of this world >

meaning this environment and his people  
or he must believe that everything will be >>>

well at the end !!!  
otherwise he will not be desirable anywhere  
because shunned all over !

because the aspiration of this satan  
is definitely the enslavement of this population  
for the purposes of the destruction of this planet >  
and this is not the first time !

around 75 million years ago > this project satan has been started  
and another world was destroyed and many millions  
made to evil zombies of this satan !

these souls then came here > and created this planet of satan!  
meaning incarnated in these chimpanzees >  
and their mischief started again ...

only if we realize this reality > in everything we do > retain >  
we can keep the evil of using us > as the zombies for his envy !  
meaning use us for his purposes > meaning destruct gods creation  
because this evil > is just envious of gods success !  
he can not bear this creation ...

as well as many of this population > can not stand this creation !  
because otherwise they would not deny its existence ....  
and without any belief in god

going down the road of destruction  
or all of these co operating "religions">  
meaning this hypocritical ...

the ones > continuously  
as zombies just helping this evil satan ...

because not be heeding this reality !

**money .... can only be the biggest problem !**

just think of ...

you would not have to get it every which way you could !?  
and then you could not go to a car dealer and buying one of those  
biggest problems you could think of > and then you could not  
get to a gas station !!!

and wasting all the hydro carbons

and in 10 years > this contraption would be needing a replacement !  
there while you could be getting a solar electric car > lasting a millennia !  
wasting no resources > and making a lot more fun to drive it !

if only your government would allow you to be driving this slow  
and you could be affording to buy one of those

on the contrary > if there is no money >  
and you do not need to be driving around all over >  
and you work place is right next door ....

and all of the things you need !  
are right there >

being brought to you by a hydro electric power train  
by a solar voltaic river boat >

or being right there produced !

what a wonderful world this would be  
where every one would be doing things >  
because they want to be doing them !

because they are having all the time >  
to making every thing lasting for ever ....

and they are not having to making them to sell in competition  
but just giving them away on any one appreciating them

everyone must answer for themselves >

whether he is working for his successful dying !  
for example > in the now economy be a shame of himself ...

or if he is working on a future ....  
for example.... guaranteeing human dignity ...  
and long term safety !

and everyone must bear the consequences  
for his doings .....

he who believes ...

that there be a difference in principal  
between the past and the today's nations  
or between all these nations here off ....

is having a thinking disorder !

because everywhere today and in the past >  
people in a group ..... are forced into line !  
and these groups forced to a nations line .....

and then all the nations ... to see how a climate is flipping !  
because nowhere > is the universal law in effect ....

meaning the law of this universe > the creation of this !  
so this whole idea of a sovereignty > being wrong .....

because no individual can be free > about his aspirations >  
except his personal preferences

*so .... " I prefer now to put some green garb on or maybe .... "*

neither ... can any nation decide > whether it >  
will be wasting the planetary resources now ....

or .... can any world decide  
to have all these environmental disasters ....  
nor can this galaxy decide > whether or what law she to have ....

since everything should be responsible  
therefore understandable > meaning humane !

so there can in principle >  
be no animals in a human settlement !  
that is simply unacceptable >

because they can > never understand >  
that it is not humane > to behave like an animal !

or a bug ....

on planet earth

homo sapiens?

mindless destruction !

who mean

a state would be sovereign

for example

the planetary resources can be squandered

to glorify a democracy

be flipping the climate?

or there could be a freedom of religion

so the citizen could believe what he wants !

so finish off his world ?

or the citizens could walk around

with a predator animal pack

guarding humans ?

that is absurd !

that can never work

that is why it does not work

that is why no one knows

what could be done ?

with this pest ...

which must be going under state supervision !

the problem seeming ...

that all those are perpetually

in puberty

and because this having proofing to them

that their parents are incapable

of being responsible  
they are stuck into  
his phase of this development  
so how do you get them out of it ?  
if all this trauma  
is much too painful for them  
so tending to being avoided  
and instead wanting love and fun  
like any infantile  
any small baby

so what would any woman want ?  
but to lying in front of the fire place  
with her big daddioo having made billions  
in realty  
watching some flick from hollywood  
taking flight from reality

**this population is not any hope of our universe  
but a danger to**

not even a potential interest in knowledge  
authentic communication or solutions  
but ever more propaganda  
for their satanic state

there for all those criminals  
can not tolerate humans  
or to guarantee their human rights  
but all their existence  
their very quality  
their success  
>>> no homo sapiens !  
just this selection of criminals ....

all those billions  
have no taste what so ever  
may not have any taste it all !  
because their very selection  
is to be guarding all those criminal tastes

all those will never learn any thing from history  
because they want to stay in power  
and those not staying in power  
will never change any thing  
but will be changed

the destiny of planet earth is determined

through the fact of this being  
the planet of satan  
and all those billions  
are zombies of satan  
being just jealous of creation  
so he can just waste creation  
to satisfy this emotion  
and we ... the trillion homo sapiens  
the guardians of creation  
can do nothing else but to save creation  
by just eliminating this population  
because they are not learning from their history  
or from us > because they have no free will  
so what do you think will happen ?

[galactic foundation](#)

**on satanic eve**

and now ...  
we will be looking at  
the source of all this evil >

how can a planetary population ?  
be this insane > to waste their very future  
in a hundred years .... ?

being not even able to talk about  
this driven population ...  
about their insanity

let us start with what every one can see  
in every t v show ... in all this propaganda  
in every news paper or internet >

we are seeing satanic eve  
being not even able to talk about  
why she is not willing to even let humans  
talk about any solution

about why she is so loving towards animals  
especially predators !

why she is so loving artificiality  
meaning ... all this no sense at all art  
all this virtual reality

why there is every citizen talking about  
saving jobs ???

when no one should be talking about them

but to work on a humane paradise !

an a meaningful life

a responsible way of life !

have you ever tried to make any sense out of ?

what satanic eve is even saying ?

it is making no sense it all !

so let us look at what is happening

when her son is being born

what will she do ?

she will be training him to being

a trained predator

like the one with the dog tag on !

loving her ....

just waiting for her every insane wishes

guarding her till death

she will not let him say one word on reality

on this tormenting him to his

spiritual death in no time it all !

and what will she do with her husband ?

will she want to be sailing off to paradise

any responsible living it all ?

or will she be buying all this waste every day

wanting all this flying to hell

her home ...

to satans home !

so ... this being the planet of satan

and every one of those billions is a satanic eve

or a satanic adam > wasting all humans

bombing every hope to their

very death

where only the freedom

to waste every thing is wanted

where no human will be able to exist

because all this is not honorable

but a shame to all our universe

have you any idea now ?  
why we have no argumentocracy here on earth !

[argumentocracy](#)

why there is no solution possible  
why only problems are getting better every day !

because every one is a conceited idiot  
thinking about nothing but their vanity ....

for as long as ... all those billions  
are striving just for their fata morgana  
there will be no authentic human paradise  
just death ...
